### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: For the claims not allowed in the first office action, none of the prior art of record either alone or in combination discloses an optical switch with first and second waveguides over a substrate. A guiding member guides the first waveguide holder so that it can move transversely relative to the second waveguide holder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ishiko et al teaches an optical device with a substrate having longitudinal and transverse grooves but no waveguides. Heiks et al teaches transverse movement of one waveguide holder relative to a second waveguide holder but this art cannot be used because of its priority date.
